Here are the references Dan sent to me for establishing Eco screening levels for water and sediment. Maybe you can interpret.

For water document pages 53-57.

http://water.epa.gov/scitech/swguidance/standards/upload/2006_01_23_standards_wqslibrary_co_reg31-20051231.pdf

For sediments please see the attachment. These will be pretty conservative, I will recommend relying primarily on the Probable Effects Concentrations (PEC)
